About the Journal

Life Sciences, Medicine and Biomedicine is an international, open access multidisciplinary journal that welcomes publication in all areas of life sciences, medicine and biomedicine. Some related biological sciences may be considered on a case by case basis.

Submissions may include research letters, reviews, short communications and research articles, from basic research, non-clinical, pre-clinical, clinical and related biological sciences. The broad focus of the journal is meant to encourage collaboration between researchers and the diverse research areas.

The journal acknowledges research is made up of interlinking branches of science and hopes that the outcome will be beneficial to the scientific community and their stakeholders.

Authors are also encouraged to submit manuscripts that focusses on the investigation of causes of diseases, their epidemiology, diagnostic processes and treatment. Papers that are looking at new methods, recent discoveries and innovation in therapy are also very much welcomed.

ISSN: 2600-7207
Publication Frequency: Quarterly

Scope of the Journal

Life Sciences, Medicine and Biomedicine accepts submissions from the following research areas:

- Applied Sciences
- Bioinformatics
- Biological Sciences
- Biomedical Engineering
- Biotechnology
- Cancer and Therapy
- Clinical Research
- Drug Discovery
- Environmental and Occupational Health
- Environmental Science
- Epidemiology
- Food Science
- Genomics
- Halal Research
- Infectious Diseases
- Inflammation and Related Studies
- Microbiology
- Molecular Diagnostics
- Natural Products and Pharmacology
- Neurosciences
- Nursing
- Nutrition and Dietetics
- Occupational Safety
- Pharmaceutical Sciences
- Physiotherapy
- Proteomics
- Public Health
- Stem Cell Research and Therapy
- Traditional Medicines
- Vaccines Research

Related biological sciences may be considered on a case by case basis.

Authors are encouraged to e-mail the Editorial Office at lsmb@wwhnetworks.com for further information regarding the suitability of your manuscript.

Indexed by

- Malaysia Citation Centre
- Google Scholar

The Editorial Office is currently working with other agencies to widen the indexing coverage of Life Sciences, Medicine and Biomedicine. More information will be shared as soon as they are available.

Life Sciences, Medicine and Biomedicine

Open Access Platform

We are publishing your work on an Open Access platform, making it available to everyone, while you retain your copyright

Indexed with Malaysian Citation Centre

We are now indexed with the Malaysian Citation Centre, Ministry of Higher Education, and Google Scholar

Wide Coverage

We cover a wide range of research areas in life sciences making scientific publishing simpler

Efficient Peer-Review

Systematic peer-review process for all submitted manuscripts using the online submission system

30-days Response

Rapid peer-review with initial response within 30 days after submission

$0 Article Processing Charges

APC is waived for all submission for the year 2018
